

Interdisciplinary internship programme under the Erasmus+ Programme

University of Bielsko Biala (Poland)

17th June - 18th September 2023

ABOUT US

The University of Bielsko-Biala was founded in October 2001 as an independent governmental academic institution. At present, about 5,000 students study at five faculties: Faculty of Mechanical Engineering and Computer Science; Faculty of Materials, Civil and Environmental Engineering; Faculty of Management and Transport; Faculty of Humanities and Social Sciences, and Faculty of Health Sciences. The University employs about 400 people, including 200 experienced professors and other academic staff. As the only state educational institution in the Podbeskidzie region which provides tertiary education, the University of Bielsko-Biala has a vibrant community of ambitious individuals who contribute to the University's research and didactic potential by constantly attaining their professional, educational and social goals. The University is firmly rooted in the region which is reflected in various enterprises with members of the community and also in its research interests.

Students from first and second cycle students from environmental sciences, power engineering, chemical technology and agricultural science and engineering field of studies students are welcome to join us for our Blended Intensive Programme in November 2023!
